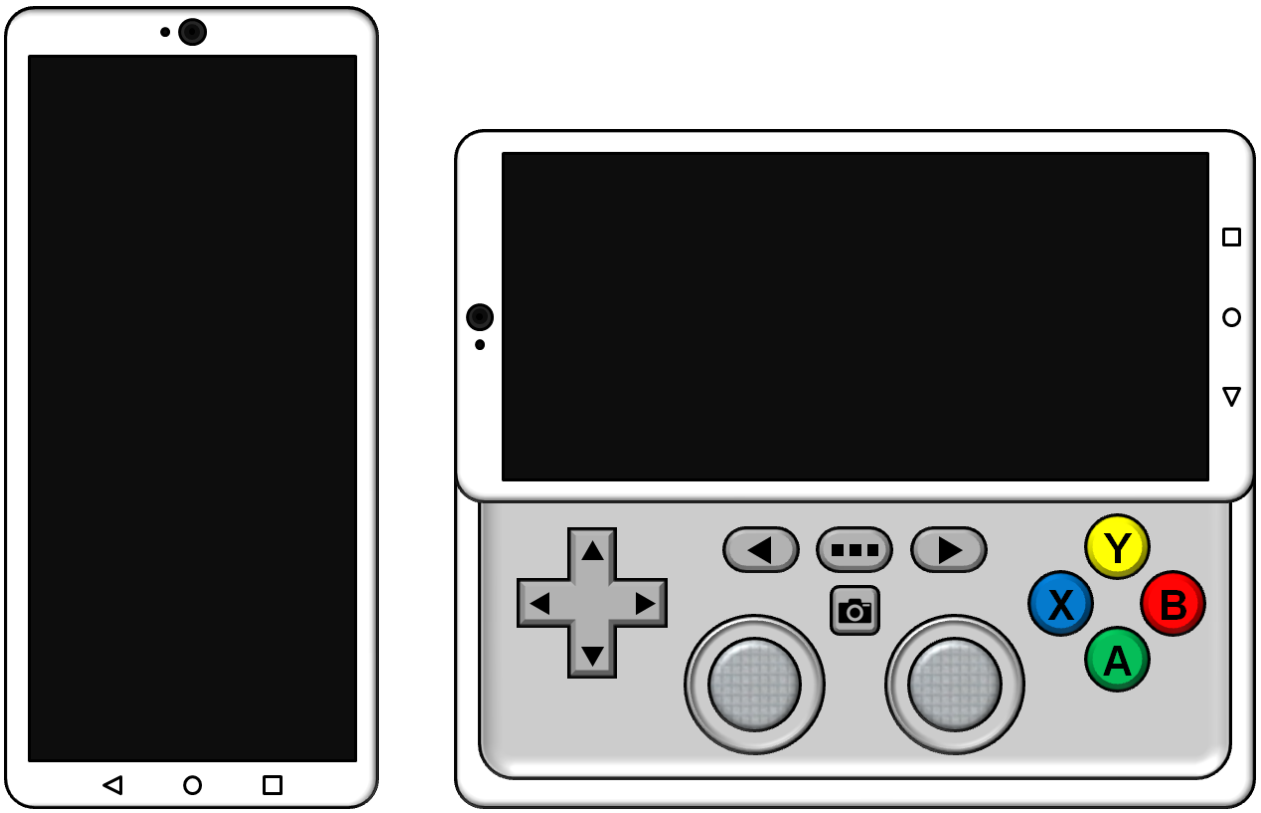
Introducing the

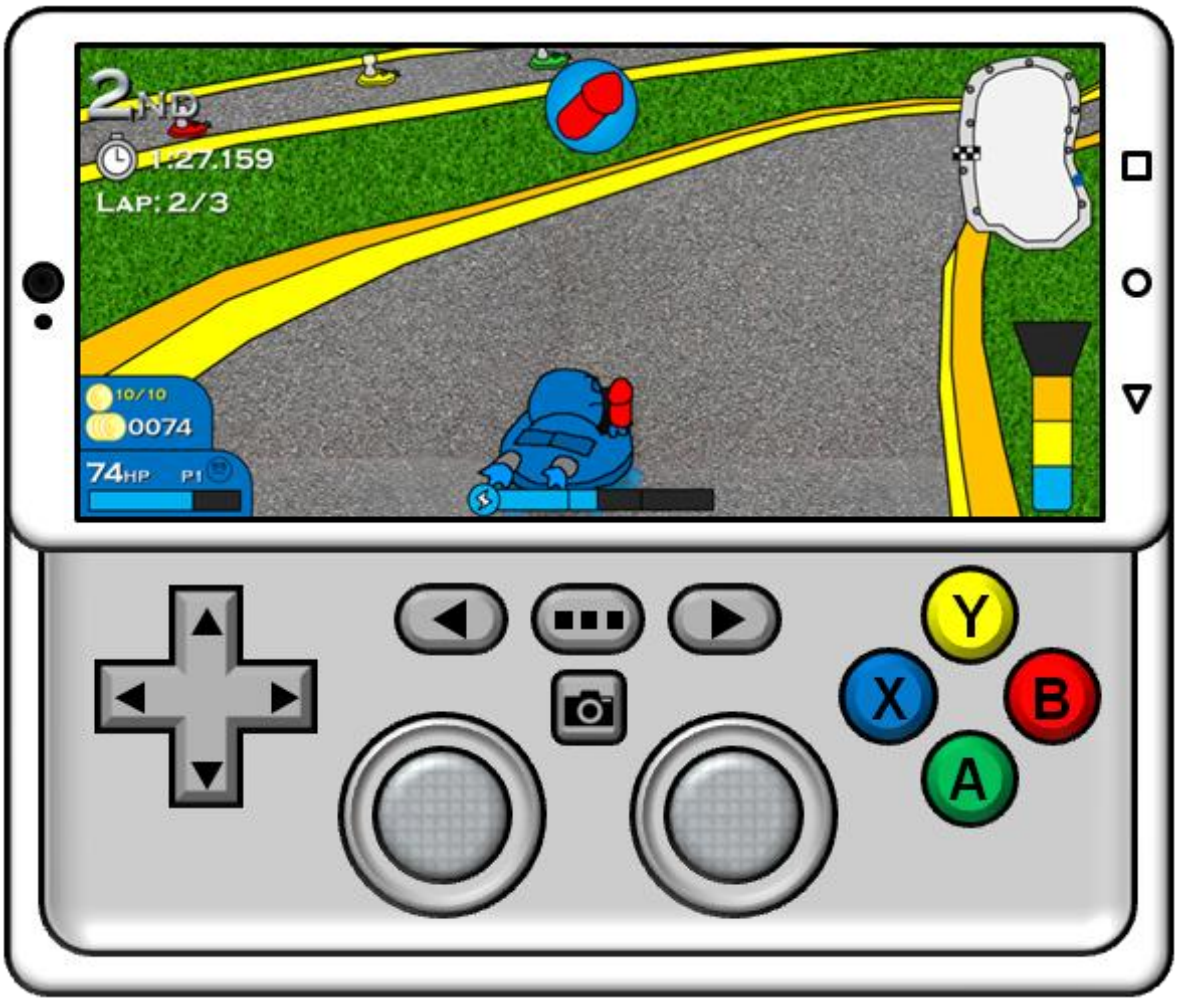
lifestyle™



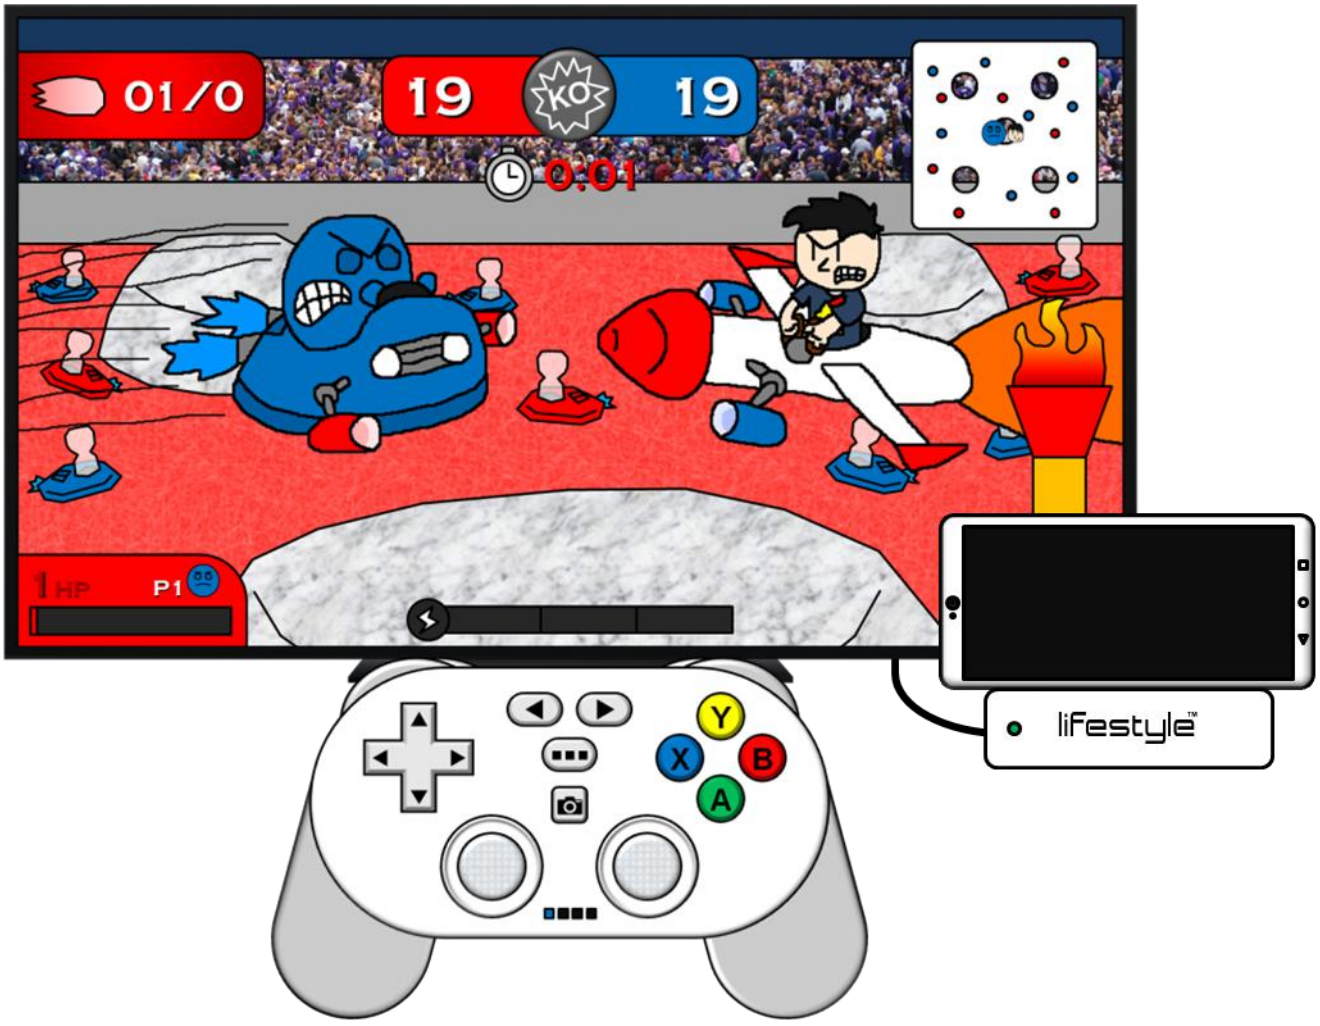
from the people that made the

playstyle™

It can mostly be used as a mobile phone.



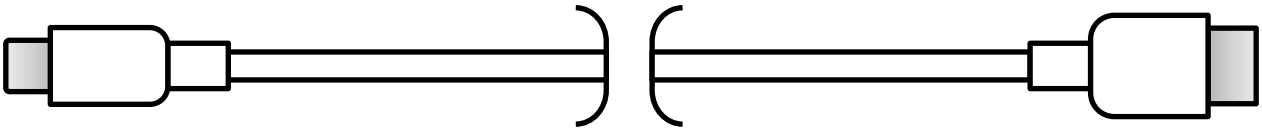
But then it can be transformed into a gaming machine as a handheld…



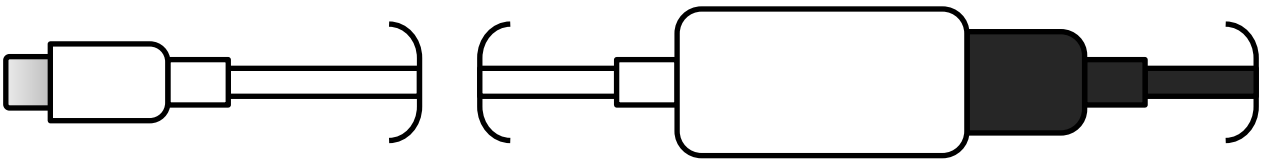
...or a home console.

It can also be transformed into a desktop computer with full mouse and keyboard support.

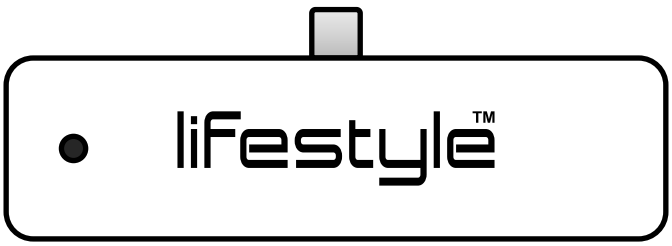
You can connect the device to your TV or monitor by:



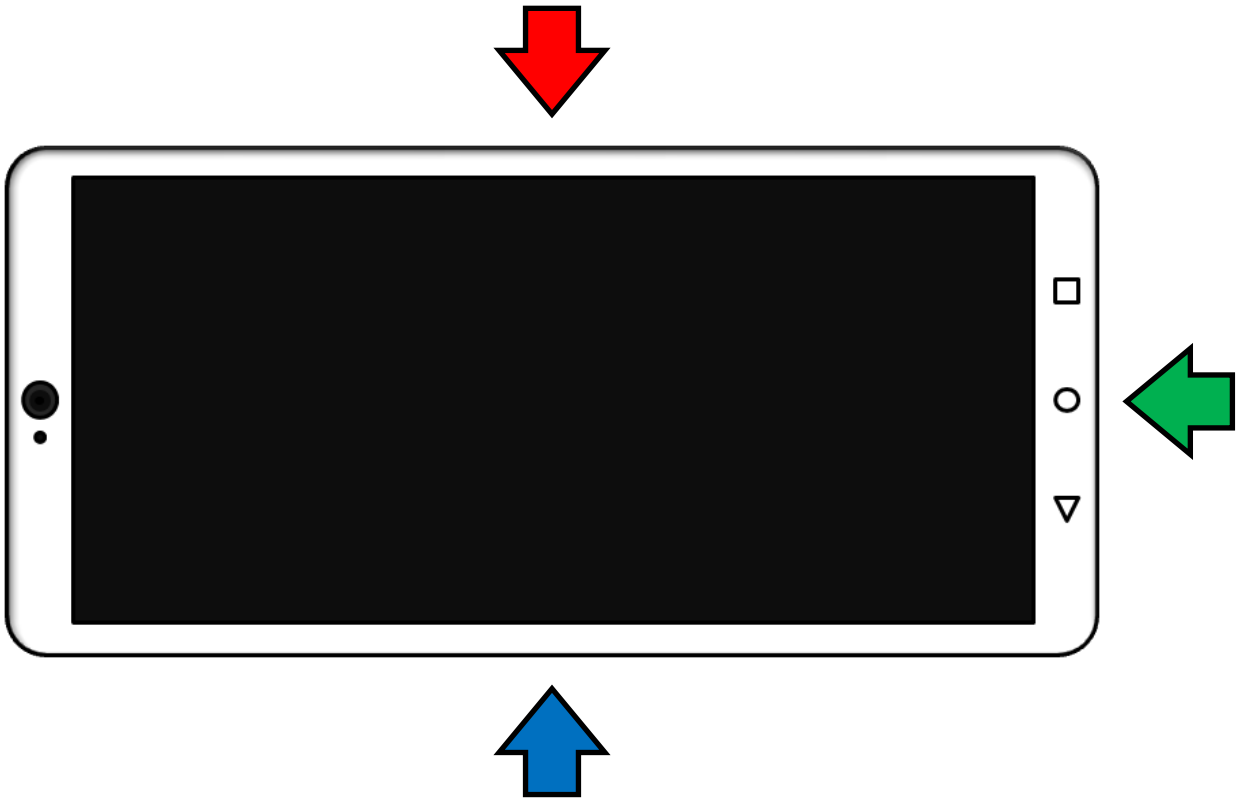
• A USB-C to HDMI cable

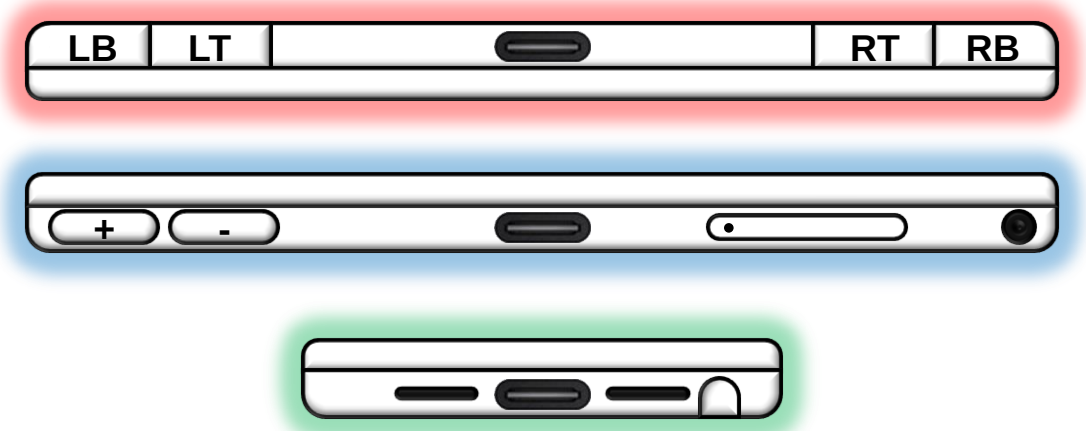


• A USB-C to HDMI Adaptor



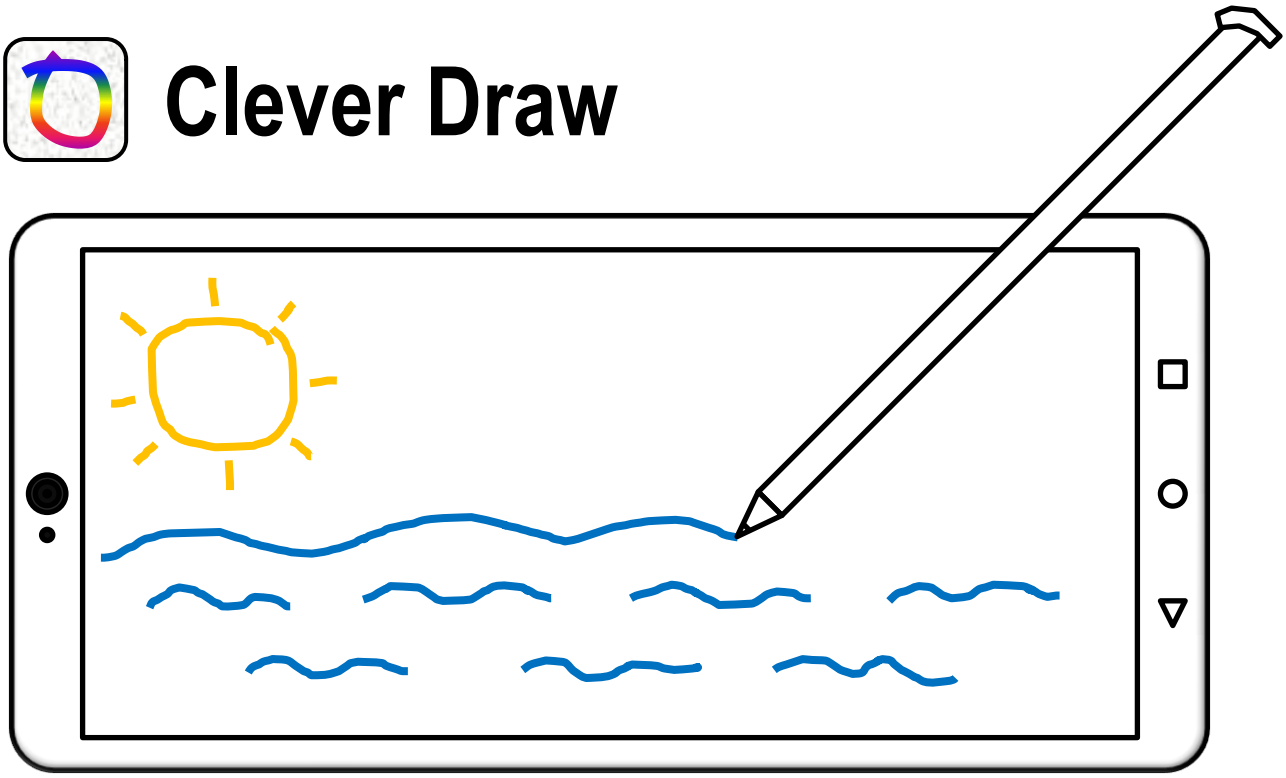
• A USB-C Dock
(first or third party)

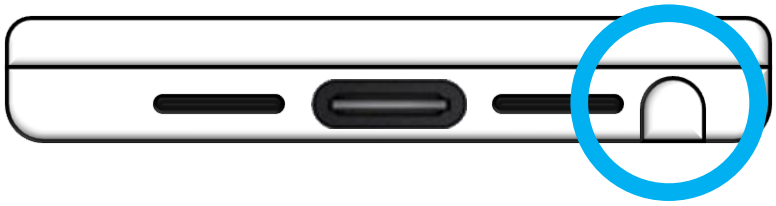




The Lifestyle has three USB-C ports that can be used in different ways depending on the scenario.

Clever Draw





The Lifestyle also has a stylus so it can be used to draw some stuff on the screen.

Introducing the apps

Clever Draw

Draw pictures that your imagination can think of. You can connect to the internet with your friends to draw stuff together.

Work Store

Download or buy work-based software that you would usually find on your PC for a full desktop experience.

Safe Surf

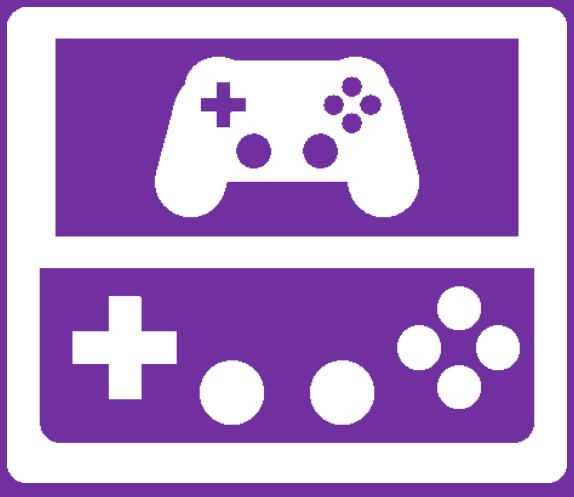
An web browser that allows parents to monitor what their children are viewing and can choose what site is appropriate.

ChatHub

An all-in-one app for communication. You can view your contacts, phone, video call or text someone.

And this one app in particular is very special.

Introducing the app



lifestyle™ gaming

In the Lifestyle Gaming app, you can:

•Purchase or download console-like gaming experiences you can play unlike other mobile storefronts.

•Play games you've purchased on the Lifestyle Gaming storefront and have your library in one place.

•Check out your achievements you've earned from your game.

•Find or add friends so you can chat to them privately or in a party and play online friend matches.

•Connect your Lifestyle to another Lifestyle for only one copy local multiplayer or other uses.

The Lifestyle Gaming app has all sorts of cool features.

Free Trials for Games

If you want to try out a game before you purchase it, you can download the full game and try it out for certain amount of time before it runs out.*

Share Play

Does a game not have an online mode? Stuck in a particular section? The player can open up a party for one of their friends and make them join in an online room so they can either play together or take control of the game.**

*Not all games will have Free Trials depending on the developer or publisher.
**Some games will have the ability for a player's friend to join and play with them for a limited amount of time if they don't own a copy of that game. They can play as much as they want if they do have a copy of that game.

Drop Play

You want to play locally with your friends but they don't have a copy of the game you're playing? If a game supports Drop Play, they can connect their Lifestyle device to yours and will download the data from your game and will drop into your game.

Want more to play & have it faster?

Drop Play Fast allows you to install a local multiplayer version of that game (that supports it) to your device locally. Not only will you get faster load speeds, but also extra content and features for that game.

Use as Controller

You can connect your Lifestyle device to another Lifestyle device to use it as a controller if your friend doesn't have extra controllers. Some games may even support the extra screen on the device for a more unique gameplay experience.

Crossover[SM] built-in

Since you can sign into your Clever ID locally, you'll get all Crossover[SM] features right out of the box.

Cloud Saves

Put all the save data of your games on the cloud in case you break your device and get a new one.

No subscription for online multiplayer

Play games online as it was meant to be played without needing a subscription.

Take screenshots

You can press the camera button on the Lifestyle’s flippable controller to take a screenshot of the game to save it to the Gallery app. Hold down the camera button and you'll be able to either create a replay, record the screen or stream it to live streaming platforms.

30-day Refund

You’re entitled to get a refund from your game purchase until 30 days.
